HUSSAM HUSSAIN FODAH

Administrative & Healthcare Operations | Patient Registration, Billing & Records | Design and Visual Arts Graduate

Makkah, Saudi Arabia | +966 54 123 1624 | Huuh5513@gmail.com | **LinkedIn**

PROFESSIONAL SUMMARY

Administrative professional with hospital experience in medical records, billing and insurance processing, alongside multiple Hajj-season crowd operations assignments. Works across Ministry of Health platforms, insurance provider portals and internal clinic systems, handling 50+ patient transactions per shift. Design and Visual Arts graduate of Umm Al-Qura University with certified foundations in cybersecurity and AI. Available for an immediate start.

CORE COMPETENCIES

Healthcare Administration: Patient Registration · Admission & Discharge Records · Ministry of Health Systems · Medical Records

Billing & Insurance: Insurance Verification & Registration · Insurance Provider Portals · Invoicing · Cash Handling · POS Systems

Operations & Service: Data Entry · Document Preparation · Official Correspondence · Customer Service · Crowd Management

Software & Tools: Microsoft Excel · Word · Google Workspace · SPSS · Adobe Illustrator · Photoshop · Cybersecurity Fundamentals

PROFESSIONAL EXPERIENCE

Front Desk & Billing Receptionist — **Jun 2026 – Sep 2026**

Al-Saedi Medical Center — Al-Nuzha, Makkah, Saudi Arabia

- Processed patient registration and insurance verification for approximately 50 patients per shift, issuing visit slips through both the insurance provider's portal and the clinic's internal system.
- Calculated and closed out consultation and service invoices each shift, handling an average of approximately SAR 10,000 in billed transactions per 8-hour shift.

Station Platform Attendant — **Hajj Season 1447H (2026)**

Al-Mashaaer Train — Crowd Management Project, Makkah, Saudi Arabia

- Managed pilgrim entry and exit flow during peak Hajj congestion, applying structured entry/exit sequencing that contributed to an estimated 50% improvement in crowd flow.
- Guided pilgrims, enforced platform safety procedures and coordinated with operations teams to cut estimated passenger waiting time by roughly 30%.

Data Entry Clerk — **Mar 2026 – May 2026**

Saudi German Hospital — Al-Aziziyah, Makkah, Saudi Arabia

- Registered approximately 25 newborns daily on the Ministry of Health Newborn Notification system, screening every name against the prohibited-names registry.
- Logged 50+ patient admission and discharge transactions daily across ICU and general rooms, coordinating with other hospitals to resolve missing discharge records before intake.
- Prepared official documentation letters for newborns in cases involving unregistered marriages and drafted embassy correspondence for the deaths of foreign nationals.

PROJECTS

Lineform — Queue Simulation & Decision Tool — **Oct 2026**

Personal project · Bilingual web app (English/Arabic) for clinics, service centers and cafés · **Live demo**

- Designed and launched a web app that simulates waiting lines and ranks fixes by their impact on wait times.
- Discrete-event simulation engine validated against queueing theory, with automated tests; developed using AI-assisted coding.

EDUCATION

Bachelor's Degree in Design and Visual Arts — **Graduated Feb 2025**

Umm Al-Qura University — Makkah, Saudi Arabia | GPA: 3.35 / 4.00

Graduation Project: Tactile Stickers for Clothing-Color Recognition Among the Blind — Braille and raised-texture color coding enabling blind users to identify clothing colors independently; mixed-methods study across 25 participants with SPSS analysis (Chi-Square, t-test, ANOVA).

CERTIFICATIONS & TRAINING

Cyber Security: Doroob (HRDF e-learning, STC-sponsored), 3 training hours | Dec 2025

Artificial Intelligence Concepts and Advanced Applications: Saudi Data and AI Authority (SDAIA) | Sep 2025
